## **ACKNOWLEDGEMENT**

By the name of Allah, the Most Gracious and Most Merciful. There do I worship and than aid I seek. Show to the straight way, the way of those have bestowed the grace, not those who is wrath and astray. Thanks because I am able to finish this research. A lot of efforts have been done and surely there are various parties involved in contributing information to me. I would like to express my sincere gratitude to all of them because without them, I am not able to complete this research.

First of all, I would like to address my sincere thankful to my supervisor Madam Dang Merduwati Bt Haji Hashim for advice, guidance, encouragement, ideas, tolerance and support that led for this research. He patiently read many drafts and those suggestions and editorial expertise gave this study its present shape.

To my family, thank you for their love and support. This has been a constant source of my strength. A lot of thankful to all my friends that helped in complete this assignment in giving opinions and ideas. Next courtesy goes to my parent and family for the love and encouragement and strength they give.

Lastly, I would like to express my sincere appropriates to those who had involve in contributing their help and support direct or indirectly in making this assignment successful.

## **ABSTRACT**

This study was undertaken to determine the Online Searching in PTAR Puncak Perdana. The overall purpose of the study was To discover the effectiveness on using online databases, To identify problems that users faced while using online databases and To identify on the awareness level of library users on online databases provided in the library. The method that been use for this study is distribution of questionnaire to sample among the group of students in UiTM Campus Puncak Perdana. 100 sets of questionnaires would be distributed to the five different faculties that are Faculty of Information Management, Faculty of Mass communication and Media, Faculty of Technology Creative and Artistic, Faculty of Accountancy, and Academy of Language Studies. The contents have been organized five parts. The first part is to analyze the background of students. The second part focuses on the effectiveness of online searching. The third parts focus on the problems on online searching. The fourth part focuses the awareness of online databases by the users. In the last part, is about the suggestions made by users. It will require users to give their opinion on how to improve the online services in the library, especially online databases.

**KEYWORDS:** Online searching, online database
